Permit No. 90

Approximate planting time for New Jersey, Metropolitan New York area, Westchester County, Connecticut and all other areas where this folder is being mailed:

BULBS AND PERENNIALS:

Late Sept., Oct. and early Nov.

ROSES: All of Nov. and early Dec.

EVERGREENS AND AZALEAS:

Sept., Oct. and early Nov. (Balled & Burlapped).

SHADE TREES AND FLOWERING SHRUBS:

Late Oct., early Nov.

Hardy Evergreen AZALEAS

When these Azaleas are planted in early and mid-fall in your area, they do very well indeed and become well established for next year's blooms. They are at home among other evergreens such as Rhododendrons, Kalmia, Ilex and Andromeda. The varieties we offer will add life and color to what may otherwise be a drab, solid green foundation planting.

Like the whole Azalea family, they prefer an acid soil with plenty of leaf mold or granulated peat incorporated in the soil at planting time.

(T) Tall grower; (C) Compact grower.

KEY TO AZALEA SIZES AND PRICES:

AZALEA, Mrs. L. C. Fischer

AMBERGLOW. (C) As the name implies, a very lovely double, deep rose-colored flower overlaid with salmon. Good foliage. B.

AMOENA SUPERBA. (C) Bright rosy purple flowers in May, covering the entire bush. Grows as broad as high. B, C, D.

CHIPPEWA. (C) A very fine June-flowering variety. Single flowers of deep rosy carmine with light maroon. Good glossy foliage. Free flowering. B.

CRIMSON KING. (C) Large trusses of light crimson flowers with a salmon cast. Very showy and attractive. B.

FLAME. (T) Medium-sized, brilliant madder-red flowers with coppery suffusion in May. Good foliage. B, C, D.

MRS. L. C. FISCHER. (C) Our own introduction. Plant of medium growth. Semi-double flowers of salmon-pink with pleasing carmine markings. Good foliage. B, C, D.

SNOW. (C) Large, pure white flowers borne profusely in clusters. Beautiful glossy green foliage. B.

AZALEA, Hinodegiri

HINODEGIRI. (C) Unquestionably the most popular of the scarlet types. Its brilliancy and beauty when in flower is never forgotten. Considered reasonably hardy. Rounded foliage throughout the year. Its bright scarlet flowers completely hide the foliage. B, C, D.

CHRISTMAS ROSE. \$1.50 each.

THE CHRISTMAS ROSE (Helleborus)

NIGER. An excellent perennial for growing in shade or partial shade, spotted between evergreens or on the north side of a building. Do not apply lime to soil. A good average garden soil (free from lime) will be found satisfactory; however, frequent waterings during a dry summer will be found advantageous.

\$1.50 each; 3 for \$4.00; 6 for \$7.00

ATROPURPUREA. Same as above but flowers are crimson-purple. \$2.50 each; 3 for \$7.00.

RHODODENDRON HYBRIDS

Contrary to general belief, these hybrids do not need shade. They are easy to grow but do require an acid soil, free from all traces of lime. The most effective plantings are those in masses combining all colors for contrast and interest.

Rhododendron Hybrids are unquestionably among the most magnificent of flowering shrubs. Their broad, leathery foliage has a majestic dignity, which proves most effective during the cold drab months of winter.

The Peony . . . KING OF PERENNIALS

Acclaimed for its regal beauty and gorgeous color

It is a generally accepted fact that Peonies give the very best results when planted in the fall. The Peony has often been called the King of the Perennials because it is so dependably hardy and long-lived. So plan to plant more Peonies this fall.

Plant in good garden soil, covering not over 2 inches deep, and top dress annually with bonemeal.

ECLIPSE. \$1.75 each; 3 or more, \$1.55 each

All Roses offered in this folder are 2-year, No. 1 dormant plants. Do not be confused by the term "2-year, field-grown," because it means very little unless there are plenty of good thick canes and strong fibrous roots to support the plants. These you will find on B. & A. Roses.

HYBRID TEA *Everblooming* ROSES

We still grow these fine old varieties in great quantities and are thus enabled to offer them at very reasonable prices. They will begin blooming early next summer and continue until late frost. In just average garden soil that will grow a good crop of vegetables and given normal care, they should live and bloom in your garden for years to come.

CRIMSON GLORY. Red. This is still the standard dark red Rose by which others are judged. \$1.75 each; 3 or more, \$1.55 each.

ECLIPSE. Yellow. With its long stylish bud opening to golden yellow, it is still a novelty. \$1.75 each; 3 or more, \$1.55 each.

Floribunda Roses

"Roses in abundance" is just what Floribunda means. Flowers are borne in graceful bouquet-like clusters and fill the garden continually with bright blooms from late spring until late fall. Plant them informally for dashes of color. They are very much at home in front of taller, hardy shrub borders. Then, too, they can be used for permanent border or hedge planting, where the color is magnificent.

BETTY PRIOR. Plant Pat. 340. Flowers resemble the pink dogwood. \$1.75 each; 3 or more, \$1.55 each.

FRAGRANT Old-Fashioned HISTORICAL ROSES

History, sentiment and poets are all entwined with these old Roses. Nearly every grown man and woman cherishes some memory of their fragrant, unsophisticated charm. Their hardiness is unquestioned and, when established, they may be considered the crowning glory of the late May and early June Rose season. They may be used as specimen plants or in with other deciduous flowering shrubs. Spaced about 3 feet apart each way, they are very easy to grow and need little coddling.

DECIDUOUS *Flowering Shrubs*

A well-planned and well-planted garden is one that has year-round beauty. Although flowering plants contribute greatly to the interest of any garden, there is also the pleasing effect to be accomplished by using plants with enduring foliage and shrubs that produce fruits.

CALYCANTHUS floridus. Strawberry Shrub. A most attractive and unusual shrub having dark red or chocolate-colored flowers in early spring, which are pleasing with their spicy fragrance. A beautiful ornamental shrub. \$1.85 each; 3 for \$4.50.

KOLKWITZIA amabilis. Beauty-Bush. Long, curving branches with little bunches of pale pink and white flowers in May and nice foliage all season. Grows to 6 feet. \$1.85 each; 3 for \$4.50.

VIBURNUM tomentosum. Doublefile Viburnum. 8 to 10 feet. Flat clusters of white flowers are produced along horizontal branches, with distinctive purple foliage. \$1.85 each; 3 for \$4.50.

Many added attractions may be seen at our Garden Center in East Rutherford

FORSYTHIA, Linwood Gold. This splendid Forsythia, which originated in Ireland, has been tried and tested, and now without hesitation we highly recommend its use in plantings where something new and different is needed. \$2.00 each; 3 for \$5.50.

PHILADELPHUS virginialis. Virginal Mock-Orange. Immense, fragrant, double white flowers in large clusters weighing down the branches. Blooms in May and June and again in fall. Grows 5 to 6 feet. \$1.85 each; 3 for \$4.50.

PYRACANTHA coccinea Lalandi. Laland Firethorn. A spectacular evergreen shrub, having clusters of white flowers in late spring and garbed with orange-red berries in the fall. A most effective shrub for wall or foundation planting. Pot-grown, 1½ ft., \$3.25 each.

All shrubs illustrated on this page will be shipped postpaid within a radius of 250 miles from Rutherford, N. J. Beyond, shipment will be R. R. Express, transportation charges collect.

If You Order by Mail, Include 50c for Packing and Handling

We have a large selection of Fruit Trees for fall planting, including Apple and Pear Trees, both regular and dwarf. Also Grape Vines—Raspberries—Blackberries and other small fruit. All available at our Garden Center in East Rutherford. We also carry a complete line of fertilizer (dry and soluble), insecticides, hose and accessories, Christmas decoration needs, etc. Plan to stop in; plenty of parking space for all.

THE TOP TEN DARWIN TULIPS

From the many varieties of Darwin Tulips grown in Holland we have selected the 10 varieties illustrated on these two pages, which are the top-notch that Holland offers in color, size and form of bloom. Each variety is a prize-winner in its color.

CLARA BUTT. Clear salmon-pink with white base. An oval flower of transparent texture.

DORRIE OVERALL. A very fine large flower of clear deep violet, somewhat lighter at the edge.

ECLIPSE. Radiant, glowing blood-red with steel-blue base. Long lasting and well formed.

GOLDEN HARVEST. Soft pure yellow. Outstanding in form and texture. Excellent for bedding.
